

Press Release, For Immediate Release

## Snowy, Brightness & Lightness Upgraded LCD Projector: NEC NP61 / NP41

**(Hong Kong – September 1, 2008)** Designed for both top performance and easy mobility, the NP61/41 projector packs an array of powerful functions into a compact, light weight body, offers a powerful 3,000 lumens of brightness and high quality images device. A model upgraded from NP60/40 to NP61/41, the body weight has been reduced by introducing magnesium housing and employing a new cooling method combining a fan and the auto functions which have been developed by NEC. This projector achieves the weight of 1.6 kg with high brightness 3,000 ANSI lumens, including a built-in speaker that was not available on the previous model. It provides a fabulous platform and convenient business tool to the business world.

### ■ Snowy color and Build-in speaker

Weighting of 1.6 kg, NP 61/41 is contributing to the compact design for easy transport. NP61/ 41 is featuring as a DLP™ projector with 3,000 and 2,300 ANSI lumens respectively and both having an excellent XGA resolution of 1,024 x 768, they are a visual feast for eyes.

Both the interior and exterior design of NP61 / 41 reflect the wishes of today's businessperson for a projector with a stylish, high technology, reliable, compact and convenient features. The additional built-in speaker feature allows the presenter to enjoy the use of this convenient business tool at anytime, anywhere.

■ With the auto focus function, the projector can be set up easily and quickly

**NP61 / 41** features with different Auto functions developed by NEC, including Auto Power on, Auto Focus and Auto Vertical Keystone Correction.

Projection starts immediately after inserting the power

cord into an outlet. The Focus sensor measures the distance between the projector and screen and adjusts the focus of the projected images automatically, no manual focus adjustment is required. Also, the acceleration sensor built into the main unit senses the inclination of the unit in the vertical direction and then corrects for any trapezoidal distortion in the projected images automatically to project square images (+/- 40 degrees from the projection angle).

■ Direct power off function makes it possible to put the projector away very quickly

Direct Power Off allows you disconnect the power cable and move the projector right away even if the cooling fan is still operating. It is not necessary to wait for the cooling fan to stop, the projector can be promptly put away and save a lot of time.

## Specification

	<b>NP61</b>	<b>NP41</b>
Contrast	1,600 : 1	1,600 : 1
Resolution	XGA (1024 x 768) – Native UXGA (1600 x 1200) – Maximum	XGA (1024 x 768) – Native UXGA (1600 x 1200) – Maximum
Brightness (ANSI lumens)	3,000ANSI	2,200ANSI
