

For Immediate Release

NEC launches a new innovative 46" MultiSync® X461UN
Ultra narrow professional LCD Display

(Hong Kong – 6th April, 2009) –NEC introduces the new MultiSync® X461UN 46-inch ultra-narrow professional display, the LCD monitor is merely 7.3mm thin and offers screen-to-screen distance between the two ultra-narrow professional displays. Intended for video wall solutions, the MultiSync® X461UN utilizes a total surface area of approximately 645 square feet and can be an ideal display product for digital signage in lobbies, broadcasting, public venues, retail areas, transportation applications, and financial environments.

NEC MultiSync X461UN shown in 2x2 video wall configurations

The ultra-narrow MultiSync® X461UN continues NEC's tradition of ground-breaking bezel design by providing the near seamless experience that is required for optimal, eye-catching performance in video wall matrices. When used in an impressive tile matrix, the MultiSync® X461UN makes for an attention-grabbing display solution.

The 46-inch display has been specifically created for rigorous 24/7 use where high reliability is key, and it incorporates a professional-grade panel with a built-in expansion slot, users can seamlessly integrate NEC's large-format accessories and third-party components, including the MPD-SBC-8/16-2 single-board computer and SB-I008WU DVI daisy-chain module or SB-L007KK HD-SDI card. It also supports diverse input connectors to ensure maximum compatibility, allowing customers flexibility and ease of use.

Features:

- TileMatrix, which enables video walls (up to 100 displays in a 10x10 matrix)
- Optional SpectraView II Color Calibration Solution for color uniformity and fidelity across individual and multiple screens, creating a perfectly matched image in tiled environments
- Network Control and Communication to deliver superior remote display management and includes such features as automatic email notification for diagnostic purposes
- Carbon footprint meter, which informs and motivates responsible use of the display by calculating and tracking carbon savings
- CableComp+ technology, which equalizes the video signal to reduce color distortion and improve sharpness for both analog and digital connections on long cable runs
- Rapid Response technology, which delivers virtually uninterrupted, undistorted viewing of high-speed, full-motion video

Specifications of MultiSync® X461UN

Viewable Size	46"
Panel Technology	SPVA
Native Resolution	1360 x 768
Active Screen Area (W x H)	40.1" x 22.5"
Pixel Pitch [mm]	0.746
Brightness (typ.) [cd/m ²]	500
Contrast Ratio (typ.)	3000:1
Video	ANALOG RGB 0.7 Vp-p/75 Ohms; Separate sync: TTL Level; (Positive/Negative)
Inputs Connectors	DVI-D, 15pin Dsub, Analog BNC, Composite (Shared RCA/BNC), S-Video, Component, HDMI
Additional Features	Ultra-narrow bezel, Ethernet monitor and control, commercial-grade sealed panel, advanced cooling system for 24/7 operation, expansion slot, programable lookup tables, Plug and Play (DDC/CI, DDC2B), PIP (remote), POP, 6-axis color adjustment, multi-level programmable zoom, TileMatrix (up to 10x10), TileComp, video ready, scheduler (w/ RTC), sharpness/softness, off-timer (countdown), screen saver, vacation switch, 10-bit gamma, AutoBright (signal input), portrait-capable; closed captioning, serial number display
Power Consumption on Mode [W]	200
Power Consumption Power-Saving Mode [W]	<1
Dimensions (W x H x D) [mm]	1025.7 x 579.8 x 128.13 (without stand)
Weight [kg]	28.7 (without stand)
VESA Hole Configuration Specifications	300 x 300mm (4 hole)
Color Version	black
Price (Suggested Price)	HK\$ 53,000

About NEC Hong Kong Limited

NEC Hong Kong Limited has a long and eventful history in Hong Kong since its establishment in 1984 and has been expanding its activities rapidly to meet the growing customer demand in Hong Kong, Macau and Mainland China. Dedicated to information and communication technologies, NEC provides advanced display & visual products, server & storage and telecommunication devices. NEC also plays a leading role in business solutions for security & border control, unified communication and IT platform, as well as services of IT consulting, networking and outsourcing. With a full range of technical experts and resources, we achieve professional customization in response to the dynamic needs of customers in various industries. With our extensive products and services, we continuously develop beneficial values for customers globally and become the one-stop answer for innovative technological excellence.
