

Press Release, For Immediate Release

**Incorporate most of the features of NEC higher-end enterprise displays**  
**The 1<sup>st</sup> LCD Display integrated 4-port USB hub**  
**MultiSync® LCD195NXM- 19" LCD Desktop Display**

**(Hong Kong – October 16, 2008)** – NEC Hong Kong Limited today introduced its first model integrated USB hub, 19" MultiSync® LCD195NXM LCD Desktop Display, which featuring pivot capabilities, improved screen performance, incorporate an USB hub, space-saving speakers, touch-integration for expanded functionality, this desktop LCD display meets the needs of business applications of all kinds. It delivers quality and reliability at an affordable price, and is perfect for business and home users.

**Enhanced connections with USB 2.0 hub**

To facilitate the quick and easy use of desktop peripherals, MultiSync® 195NXM is integrated with USB2.0 hub, the 4-port USB gives convenient connections to peripherals. The hub allows you to connect USB flash drive, camera, keyboard, mouse, and other devices directly to the display. It features Ambix® dual-input technology that utilizes both DVI-D and 15-pin VGA connectors, you can bridge the gap between analog and digital systems by allowing the same monitor to work seamlessly in either environment.

### **Space-saving and down-firing multimedia**

MultiSync 195NXM comes with the built-in down-firing speakers supporting multimedia capability; these space-saving integrated speakers add amazing multimedia enjoyment and quality sound during presentations or other display applications.

### **Wide compatibility for today and tomorrow**

MultiSync is equipped with numerous features geared towards the professional user. This includes a 110mm height adjustable stand with flexible pivot, tilt and swivel capabilities. The functions bring the display to your preferred comfort level, while the swivel and pivot capabilities create new viewing options on your desktop. The XtraView technology also provides some of the widest viewing angles available. The MultiSync 195NXM is Windows™ VISTA compatible and offer NEC's exclusive NaViSet™ software, an intuitive graphical user interface. With this feature, users can easily adjust On Screen Manager (OSM®) display settings via mouse and keyboard, allowing users to set the monitor to specific settings for color critical programs.

### **Enhanced screen performance**

The display comes with the No Touch Auto Adjust, which eliminates the hassle of adjusting screen controls when connecting displays to a new system. Also, with contrast ratios as high as 1000:1 and brightness quality up to 300 cd/m<sup>2</sup>, outstanding LCD monitor front-of screen visual performance is NEC Display Solutions' #1 goal. Rapid Response™ technology provides for lifelike full-motion video display without distortion at response times as swift as 5ms.

### **Features:**

- Integrated **USB 2.0 hub** gives you convenient connections to peripherals
- Height-adjustable stand adds flexibility and comfort to your viewing preferences
- Pivot capability creates more viewing options for your desktop
- Space-saving, down-firing multimedia speakers provide quality sound
- Touch or protective glass integration-enabling design increases application options
- Rapid Response™ technology delivers virtually uninterrupted, undistorted viewing of high-speed, full-motion video
- XtraView® technology provides for some of the widest viewing angles available
- Ambix® dual-input technology allows for digital /analog compatibility with upgraded video cards and software as well as connection to two systems
- NaViSet™ software offers an expanded and intuitive interface, allowing you to more easily adjust display settings via mouse and keyboard
- Available in both black and silver/white color
